

WHAT WE DO

Grapevine Grooves is one of the fastest growing “New Generation” house music labels on the market. It was founded by DJ Flore, who is currently based in Dubai and New York & Agent Q, based in Munich. Both of them are experienced DJs, Producers and Remixers with a number of releases already available and have worked with Indie & Major Labels such as BikiniRecords, Dbeatzion, Ministry of Sound or Universal Music Group and both have established an international artist and supporter network.

However, they were determined to give opportunities for upcoming artists to release their productions on a global scale, with the right support and a professional approach. At the same time they wanted to combine this new talent with established names in the scene. As a result, their label Grapevine Grooves is presenting itself as a fast growing source of quality House music.

THE NEXT STEP

As part of our efforts to spread our network and the exposure for our artists and releases, we aim to have a regular label night in various international clubs. We are starting in our homebase Munich, where we bring in international DJ talent to the local community of house music lovers at club Neuraum, where our label night stands in a row with clubnights hosted by Pete Tong, Ian Carey or Tom Novy.

HOW DOES IT WORK?

We are approaching you because we feel your venue, audience and events would match our concept: A one night special event, that is dedicated to quality house music and hosted by our label. This means we bring internationally established DJs to your venue, promote the club, contribute our branding and marketing and make sure the event gets attention even after it took place by appropriate photo and video coverage. Exclusive promo CDs, contests, artist meet & greets and more!

WHAT'S IN IT FOR YOU

We offer you the opportunity to present an event concept that is out of the ordinary and that will definitely be something new for your audience. We bring in fresh DJs and music, a connection to the scene and most importantly, we love what we do - and your visitors will feel it.
